

Engage your learners, broaden their perspectives, and enhance your curriculum with a visit from the **Science Program and Research Coach (SPARC)** Mobile Science Program.

SPARC is dynamic, career-connected, STEM education for all learning levels powered by PSBR, the Pennsylvania Society for Biomedical Research.

What's Included?

- ✓ FREE lesson instruction for Kindergarten through 12th grade.
- ✓ Unique, fully interactive, and hands-on. All equipment, materials, tools, and supplies provided.
- ✓ Aligned to state curriculum and testing standards.
- ✓ Content tailored to your grade level, class time, and selected topic.
- ✓ Flexible scheduling customized to your teaching load.
- ✓ Content provided by PSBR's highly-trained educators
- ✓ Includes pre- and post-visit videos, activities, reflective assignments, and ongoing opportunities to explore scientific careers and educational pathways.

Select a lesson that's best for your students!
