

Bionic Ears  
Cochlear implants help deaf people hear.

Bionic Organs  
There are Bionics for different parts inside the human body.

Bionic Body Parts

Bionic Legs  
Nerves connect to healthy muscles above the knee, and when thinking about moving your leg it moves.

Bionic Eyes  
Glasses with a tiny camera on the side connects to the back of the brain in order to see.

Bionic Arms  
Nerves connect to the healthy part of the muscles on a chest, when thinking about bending your arm it bends.
